3 Days Kaeng Krachan

Beyond Imagination

[Kaeng Krachan show on eBird 361 species](#) (click) is the largest national park of Thailand, location on the border with Myanmar means it is part of a much larger forest complex than just the National Park and an excellent refuge for a huge number of species, including many of Asia's rarest mammals and birds, can we call the **best place in Southeast Asia for birding and conservation** ; located at the northern end of the Malay Peninsula. Due to its location near the touristic town Hua Hin it is a popular park.

Geography It consists mainly of rain forests within the eastern slope of the Tenasserim Mountain Range. The highest elevation is at 1200m, the mean elevation of the area is at Two main rivers originate within the park, the Pranburi River and the Phetchaburi River. The Phetchaburi is blocked by the Kaeng Krachan dam at the eastern border of the park.

History The park has been included in the list of ASEAN heritage parks. In 2005 it was also submitted to UNESCO for consideration as a future world heritage site. Thailand's largest national park , Kaeng Krachan is a superb park for trekkers and a paradise for birdwatchers. dominated by semi-evergreen forests, with hill evergreen forest above 1,200 m. the lower reaches of two major streams have been dammed and are mostly deforested, but the upper reaches may still contain some moist, valley bottom forest at low elevation.
